

EXHIBIT C

Commonwealth of Puerto Rico Title III Case: Plan Support Agreement

February 9, 2020

Executive Summary: Plan Support Agreement Highlights

The Financial Oversight and Management Board for Puerto Rico (“FOMB” or “Board”) has reached a new and more favorable Plan Support Agreement (“PSA”)

- This PSA modifies the September 2019 Plan of Adjustment (“Initial PoA”) with regard to several factors:
 - **Lower Debt Service Payments:** Decrease of \$4.8 billion in debt service relative to Initial PoA
 - **More Rapid Deleveraging:** Debt maturity limited to 20 years versus 30 years in Initial PoA
 - **Additional Support:** Increase from ~\$3 billion in support to ~\$8 billion of creditor support

	Initial Plan of Adjustment (9.27.19)	Plan Support Agreement (“PSA”) (2.9.20)
Total Consideration in Plan of Adjustment	▪ \$14.677 billion	▪ \$14.478 billion
Reduction of Total Liabilities	▪ \$23 billion reduction of \$35 billion in liabilities, a 66% decrease	▪ \$24 billion reduction of \$35 billion in liabilities, a 70% decrease
Total Debt Service (incl. COFINA)	▪ Reduction from \$90.4 billion to \$44.6 billion, a 51% decrease	▪ Reduction from \$90.4 billion to \$39.7 billion, a 56% decrease
New Debt	▪ Maximum of \$11.8 billion	▪ \$10.7 billion
Security Structure	▪ 100% GO	▪ 50% GO / 50% COFINA Jr.
Max. Annual Debt Service (incl. COFINA)	▪ \$1.5 billion, down from \$4.2 billion, a 64% decrease	▪ \$1.5 billion, down from \$4.2 billion, a 64% decrease
PSA Fee for Retail Holders	▪ None	▪ \$50 million set aside so that retail holders are treated equally to PSA parties

Plan Support Agreement: Overview and Background

- **The Commonwealth of Puerto Rico (the “Commonwealth”) filed for a Title III proceeding on May 3, 2017**
 - About \$35 billion of funded bond debt and unsecured claims and \$55 billion in pension obligations are expected to be adjusted through a Commonwealth Plan of Adjustment
- **Puerto Rico has suffered an economic and demographic decline, as detailed in the 2019 Fiscal Plan for the Commonwealth**
 - Relative to 2005, the economy is \$16 billion smaller (in real terms) and the population has fallen by more than half a million
- **Several natural disasters hit the island, causing unprecedented and catastrophic damage to Puerto Rico**
 - Hurricane Irma and Maria hit the island in September 2017, causing over \$100 billion in damage, more than Puerto Rico’s annual GNP
 - While federal emergency funds provided a temporary boost in economic activity post-Hurricane Maria, economic fundamentals have remained fragile; the 2019 Fiscal Plan proposes a series of structural reforms to improve Puerto Rico’s economic trajectory
 - Ongoing seismic swarm since January 2020 resulting in tens of billions of dollars in estimated damage
- **On September 27, 2019, the FOMB filed the initial Plan of Adjustment (the “PoA”) and an initial Disclosure Statement**
 - Put the Commonwealth on a path to emerge from Title III with a sustainable capital structure
 - Began the process of restoring future access to the capital markets
- **Since filing the initial PoA, the FOMB, and GO/PBA creditors have continued to engage in mediation and entered into a Plan Support Agreement (“PSA”)⁽¹⁾**
 - Significantly increases creditor support and minimizes both litigation and confirmation risk
 - The FOMB expects to file an amended Plan of Adjustment consistent with the PSA, on or before February 28th

(1) The Initial Plan Support Agreement (the “initial PSA”) of May 2019 was terminated upon joint agreement and is of no force and effect.

The PSA does not change treatment afforded to pensioners as part of the agreement negotiated and signed with the Official Committee of Retirees.

- Covers over 300,000 active and retired employees and their beneficiaries who are participants of Employees Retirement System (ERS), Teachers Retirement System (TRS), or Judiciary Retirement System (JRS)
- In 2016, when Congress passed PROMESA, the Commonwealth owed Puerto Rican retirees over \$50 billion in pension benefits that were unfunded

Impact on Pensions	<ul style="list-style-type: none"> ■ Pensions of approximately 75% of current and future retirees unaffected ■ Pensions of <\$1,200 a month unaffected ■ Medical insurance benefits unaffected ■ No individual will have their monthly retirement benefit reduced by more than 8.5%⁽¹⁾
Pension Reserve Fund	<ul style="list-style-type: none"> ■ An independently managed pension reserve fund (“Pension Reserve”) will be established to ensure sufficient funds for pension benefits ■ The Pension Reserve will receive contributions from the Commonwealth cash surpluses projected in the Fiscal Plan ■ Based on Fiscal Plan projections, the Pension Reserve is forecasted to receive ~\$6 billion in contributions from the Commonwealth over the next eight years
Pension Benefit Restoration	<ul style="list-style-type: none"> ■ In any of the next 15 years, if the Commonwealth generates a higher cash budget surplus than projected per the Fiscal Plan, retirees will receive 10% of the surplus in additional cash ■ That portion of the surplus will be paid to retirees up to the amount that retirees’ original pension benefit was reduced ■ In years during which the Commonwealth’s fiscal situation is better than expected, original pension payments would effectively be restored

(1) Only benefits accrued prior to May 4, 2017 are subject to reduction. Benefits accrued on and after May 4, 2017 are unaffected.

Plan Support Agreement: Key Highlights

Financial Sustainability and Market Access

- Sets a sustainable capital structure for the Commonwealth in the future by limiting overall tax-supported debt service (inclusive of COFINA Senior) to below the average debt service of the top-10 most indebted U.S. states; ***less than 9% from 28% previously***
- Restructured Commonwealth debt service (excludes COFINA Senior) is limited to **20 years**, instead of 30 years, and declines significantly over time
- PSA and PoA will provide for the implementation of sound debt management policies, including a cap on overall tax-supported debt
- Plan shall provide clarity for the Commonwealth and market participants on resolution of the Commonwealth's Title III proceedings and begins the process of restoring access to the capital markets

Deleveraging

- The PSA reduces maximum annual tax-supported debt service inclusive of COFINA from \$4.2 billion to \$1.5 billion, a reduction of ***\$2.7 billion***
- The plan shall provide bondholders and creditors with blended overall recoveries on \$35 billion of Commonwealth claims of **41.3%** (excluding recoveries from non-tax supported entities)⁽¹⁾

(1) Excludes PSA Fee. Excludes recoveries from ERS Own-Source assets.

Plan Support Agreement: Key Highlights

Bond-Related Litigation

- The Initial PSA included a litigation trust and process to continue litigating the validity of the bonds issued in and after 2011
- The FOMB, through the mediation process, has reached a settlement on both the validity of the post-2011 GO bonds and on the priority of the GO bonds, realizing substantial savings for the Commonwealth
 - **Priority litigation:** FOMB has realized ***\$6.8 billion in total upfront savings*** and ***\$11.0 billion of total debt service savings⁽¹⁾***
 - **Validity litigation:** FOMB has realized ***\$435 million in total upfront savings*** and ***\$704 million of total debt service savings⁽²⁾***
- Moreover, reaching a settlement with the GO holders serves to protect the funding of the pension trust and the ongoing payments to retirees
- Notwithstanding the settlement of GO priority and validity litigation, the Board continues to pursue validity litigation with respect to other claims
 - ERS Bonds: ***\$3.1 billion***
 - Clawback Bonds: ***\$8.1 billion***
 - Third Party Claims: Claims against underwriters and other avoidance actions

(1) Includes the benefit of discounts received pursuant to the invalidity litigation.

(2) Represents consideration that would have been paid to bondholders had discounts – per the settlement in lieu of litigation – not been applied.

The Plan Support Agreement, together with the COFINA Plan of Adjustment, successfully achieves a sustainable capital structure by reducing total tax-supported debt service from \$90.4 billion to \$39.7 billion from FY17 to FY49.

COMMONWEALTH PRE-PLAN DEBT SERVICE

(\$ in millions)

COMMONWEALTH POST-PLAN DEBT SERVICE

(\$ in millions)

The Plan Support Agreement reduces debt service from 30 years as contemplated in the filed Plan of Adjustment to 20 years, providing the Commonwealth with significant financial flexibility in the long-term.

Plan Support Agreement: Bondholder Recoveries

- The PSA provides a framework for a Plan of Adjustment with \$10.7 billion of new debt and \$3.8 billion of cash as consideration for ~\$35 billion in Commonwealth debt and unsecured claims
- Validity of the 2011, 2012, and 2014 bonds is settled via discounts to pre-2011 recoveries
 - Discounts resulting from the settlement *provide benefit to the Commonwealth in the amount of \$435 million*

(\$ in billions)
